What is Cognos?

Cognos is a suite of data analysis and information presentation tools, including reporting, "dashboards", and on-line drill down from high-level summary to low-level details of your data.

Cognos can report from almost any data source that the City connects it to. At the initial implementation phase, selected information has been made available from PeopleSoft Financials and PeopleSoft HR, along with response times for Police and Fire. Additional sources of information will be made available as time and priorities allow.

Logging In to Cognos

The powerful information presentation and analysis tools provided by Cognos are accessed through a web browser like Internet Explorer. Open your web browser and navigate to:

<http://marvin.fresno/crn>

A screenshot of the Cognos 'Log on' dialog box. The window has a title bar 'Log on' with a close button (X) and a 'Help' link. The main text says 'Please type your credentials for authentication.' Below this, there are three labels: 'Namespace:' with the value 'Series 7', 'User ID:' with a text box containing 'BrionWL', and 'Password:' with a text box containing nine dots. At the bottom left are 'OK' and 'Cancel' buttons. At the bottom right is a copyright notice: 'Copyright (C) 2004 Cognos Incorporated. All rights reserved. Cognos (R) is a trademark of Cognos Incorporated.'

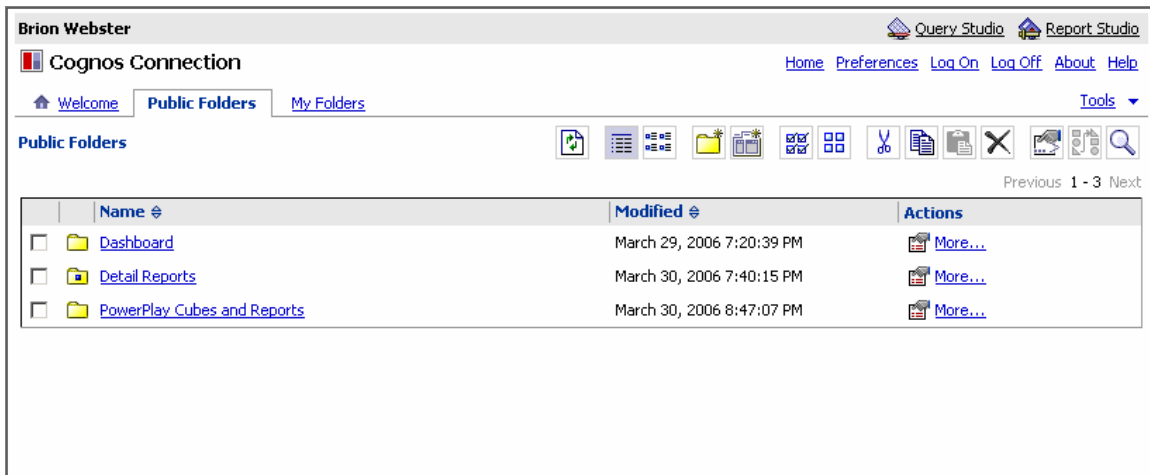

This will give you a signon screen, and you need to provide a Cognos User ID and password. Your Cognos User ID is usually the same as your Novell (network) ID. Your initial password is your User ID with the number 1. For example, if your User ID is GeorgeS, your first password would be GeorgeS1. You will have to pick a new password the first time you log in. Pick a password you'll remember, this one does not change.

Finding the City Information

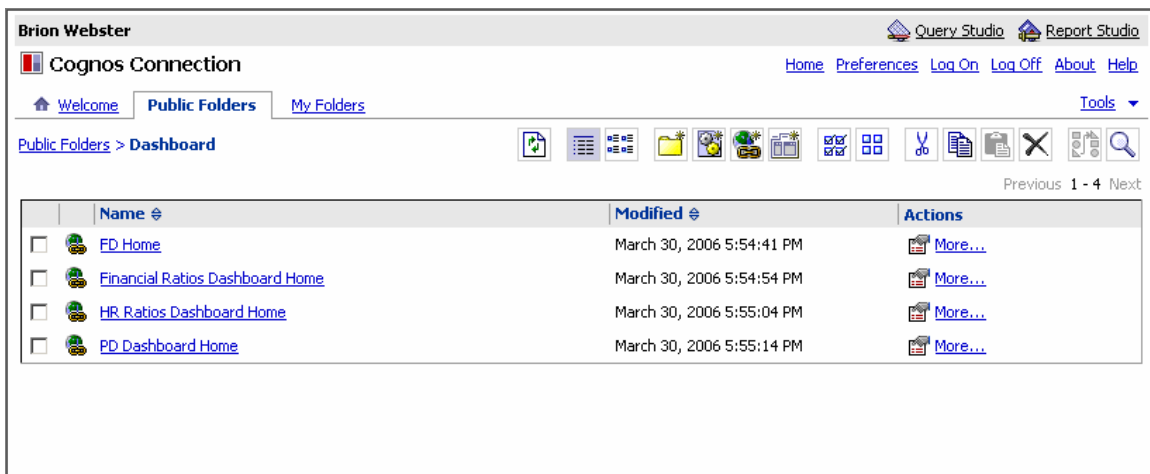

Once you log into Cognos, you are initially presented with the Welcome Screen. We'll come back to what's available on the Welcome Screen later. For now, let's focus on finding something that makes sense in our context. Towards the top left of the screen is a link for "Public Folders". Click on this link.

There are three Public Folders listed, the interesting folder is the "Dashboard" folder.

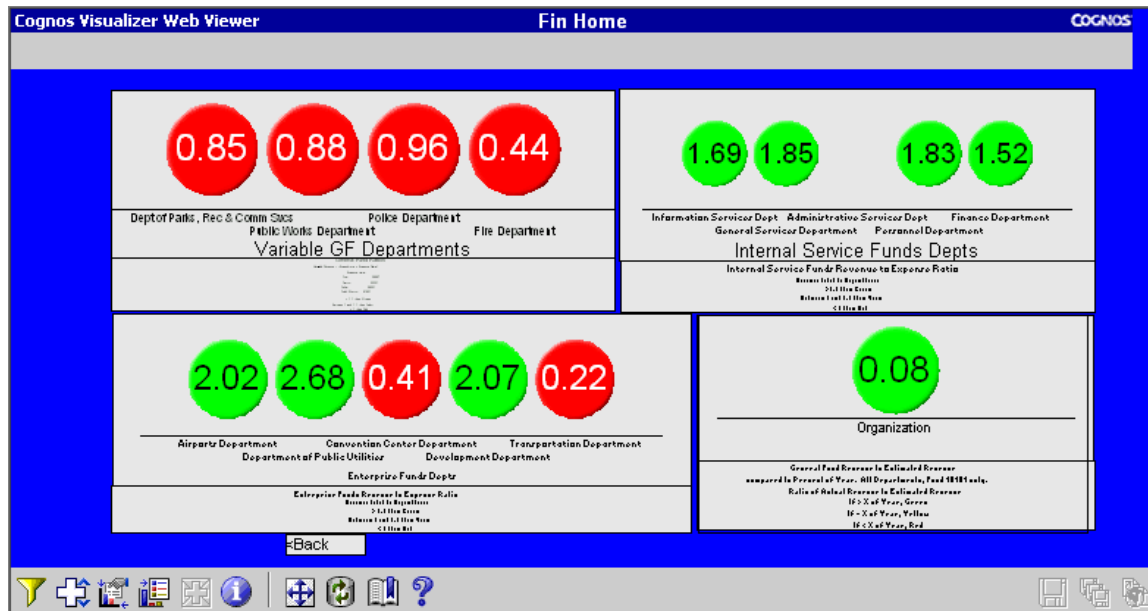

The Dashboard folder contains the City of Fresno standard dashboards prepared for the City Manager and Department Directors. These dashboards provide an "at a glance" indication of performance on selected measures, and are the starting place for further data analysis.

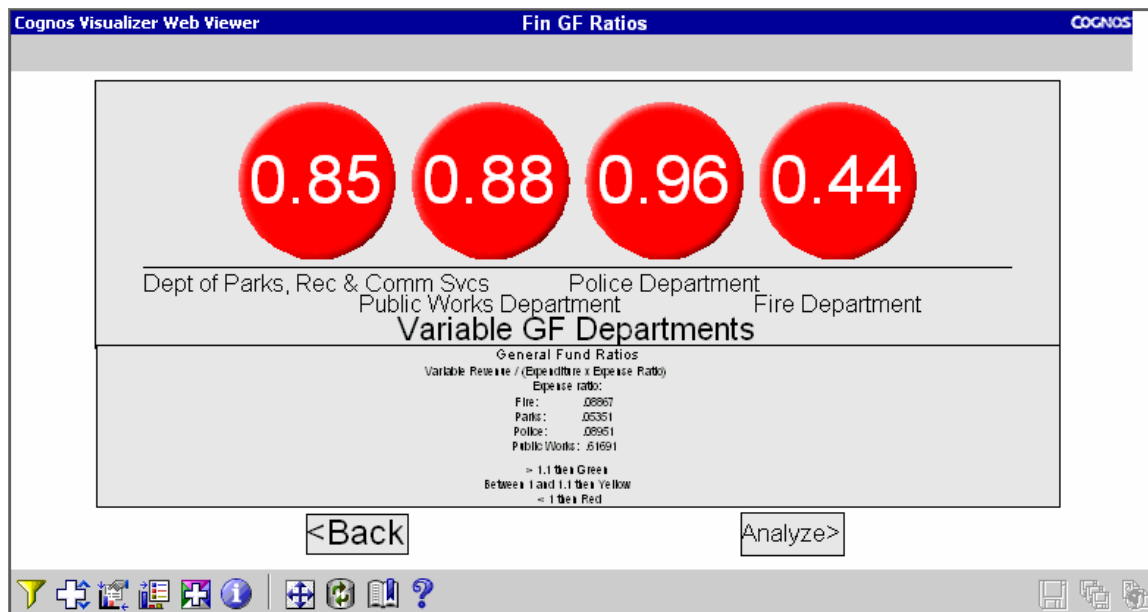

There are currently four dashboards to start looking at. Most Departments will look at either the Financial Ratios or HR Ratios Dashboard Homes.

Financial Ratios Dashboard Home

The Financial Ratios Dashboard Home opens up to an overview of one performance measure for all Departments – Revenue to Expenditure Ratio – and an overall gauge of General Fund Revenue collection versus expected for the entire City.

Each circle in the first three boxes represents one Department. The last circle represents the overall City progress on General Fund Revenue collection. Departments are grouped together by their primary funding source. In order to get a better idea how your Department is doing, click on your grouping. For example, a user in Public Works would click on the “Variable GF Departments” box.

This is much easier to read, and shows that Public Works, as of the moment the picture was taken, had collected 88% of the revenue it was expected to collect so far

this year, for the portion of it's expenses that were programmed from the General Fund.

Revenue vs Expenditure? Is this all there is?

Just because this one measurement is listed on the dashboard for every Department doesn't mean this is all you can find. The dashboards have been chosen as a quick "at a glance" indicator of the fiscal health of the Department. There are a number of other very useful pre-calculated measurements, as well as the raw data, available. Click on the "Analyze" button at the bottom of the Dashboard.

MEASURES as values	Actual Revenue	Actual Variable Revenue	Actual Expenditure	Estimated Revenue	Appropriation Amount	GF Exp Ratio	GF Revenue to Exp Ratio
Dept of Parks, Rec & Comm Svcs	\$833,201.54	\$691,427.69	15,158,140.59	\$1,285,500	\$21,697,000	0.05351	0.85
Public Works Department	\$5,587,422.55	\$5,581,378.57	10,254,707.21	\$7,906,700	\$14,418,300	0.61691	0.88
Police Department	\$6,700,325.86	\$6,700,439.73	78,165,567.97	\$9,807,300	\$110,474,700	0.08951	0.96
Fire Department	\$1,050,653.75	\$1,050,646.46	26,911,706.95	\$3,662,000	\$35,897,200	0.08867	0.44
General Funds Depts	\$14,236,658.62	\$14,088,932.37	134,252,121.50	\$22,671,200	\$187,901,100	0.12305	0.85

This portion of Cognos is the "Power Play" tool. This is where you can "play around", slicing and dicing the data to your heart's content.

Analyzing the Financial Ratios a Brief Introduction

The opening screen of the Finance Ratios Power Play shows the selected Departments (earlier you selected either Variable GF, Enterprise, or Internal Service Fund Departments) as rows, with the most common pre-calculated measurement in columns.

Using the Dimension Line

Across the top of the grid, in the blue bar (called the Dimension Line), is a list of the filters in place. By default, each of the Department entry screens will filter for the current Budget Year (2006 in the example), the General Fund, and the general funding source for the Department grouping selected in the previous exercise.

If you want to narrow down your display to a particular Department, you can click on "General Fund Depts", for example, and navigate the pop-up selection tool to the desired Department. Selecting Variable GF Departments -> Police Department will show the thirteen top level Divisions that have ever had data entered in Budget Year 2004 or later. Note that the second filter shows 2006 – or Budget Year 2006. Five of the Divisions have no data at all in Budget Year 2006, but because they had data in the system, they will continue to appear. A Department total appears in the bottom row.

MEASURES as values	Actual Revenue	Actual Variable Revenue	Actual Expenditure	Estimated Revenue	Appropriation Amount	GF Exp Ratio	GF Revenue to Exp Ratio
Office of the Chief Division	\$1,158,528.24	\$1,158,674.19	\$22,251,544.43	\$1,539,300	\$25,462,400	0.08951	0.58

Local Grants	\$2,086,635.64	\$2,086,948.39	\$2,120,850.00	\$4,741,700	\$4,241,700	0.08951	10.99
Police Dept Capital	\$0.00	\$0.00	\$0.00	\$0	\$0	0.00000	/0
Police Department	\$7,035,219.92	\$7,035,646.54	\$82,164,089.88	\$9,807,300	\$110,474,700	0.08951	0.96

Hide Irrelevant Categories

There is a quick and easy way to hide those five Divisions that no longer have information relevant to the current Budget Year. Across the bottom of the browser, there is a toolbar of buttons with special functions.

The button with the crossed out zero will show the hint "Zero Suppression" when you move the mouse cursor over it. Clicking the button will hide rows and columns that add up to zero.

MEASURES as values	Actual Revenue	Actual Variable Revenue	Actual Expenditure	Estimated Revenue	Appropriation Amount	GF Exp Ratio	GF Revenue to Exp Ratio
Office of the Chief Division	\$1,158,528.24	\$1,158,674.19	\$22,251,544.43	\$1,539,300	\$25,462,400	0.08951	0.58
Patrol Division	\$3,753,314.69	\$3,753,314.69	\$32,185,710.39	\$3,526,300	\$45,244,100	0.08951	1.30
Patrol Support Division	\$372.00	\$372.00	\$8,840,017.24	\$0	\$12,540,900	0.08951	0.00
Administrative Svcs Division	\$415.24	\$383.16	\$6,855,025.97	\$0	\$9,587,700	0.08951	0.00
State Grants	\$0.00	\$0.00	\$67,718.71	\$0	\$58,800	0.08952	0.00
Other Grants	\$0.00	\$0.00	\$726.86	\$0	\$1,900	0.08943	0.00
Investigative Svcs Division	\$35,954.11	\$35,954.11	\$9,842,496.28	\$0	\$13,337,200	0.08951	0.04
Local Grants	\$2,086,635.64	\$2,086,948.39	\$2,120,850.00	\$4,741,700	\$4,241,700	0.08951	10.99
Police Department	\$7,035,219.92	\$7,035,646.54	\$82,164,089.88	\$9,807,300	\$110,474,700	0.08951	0.96

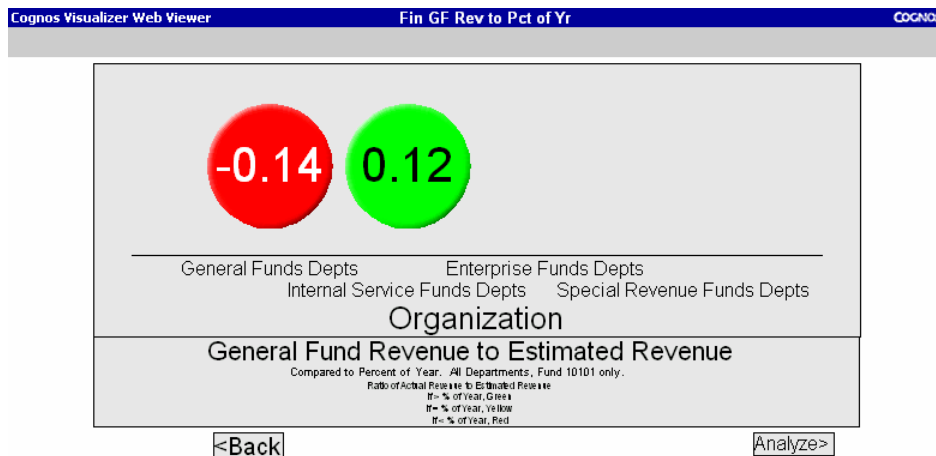

Zero suppression rows and columns.

A note appears on the screen to indicate data may be missing, and the five "extra" Divisions disappear.

Using just the Dimension Line (or Filter Bar) you can quickly drill down to any section, Division, or Department that interests you, for almost any time frame, fund, account, or specific measurement. For more information on navigating the information, or using PowerPlay to analyze the data, see "Using PowerPlay Web Explorer for Navigation and Analysis" on Page 24.

General Fund Revenue to Estimated Revenue

The fourth box on the Financial Ratios Dashboard Home screen shows an overall gauge for General Fund revenue collection. Clicking on this box shows General Fund revenue collection for the Department groupings explored previously.

Clicking Analyze and turning on Zero Suppression shows how various Departments are collecting General Fund revenue when compared to the anticipated revenue collection loaded into the budget for 2006 and the percentage of BY 2006 elapsed.

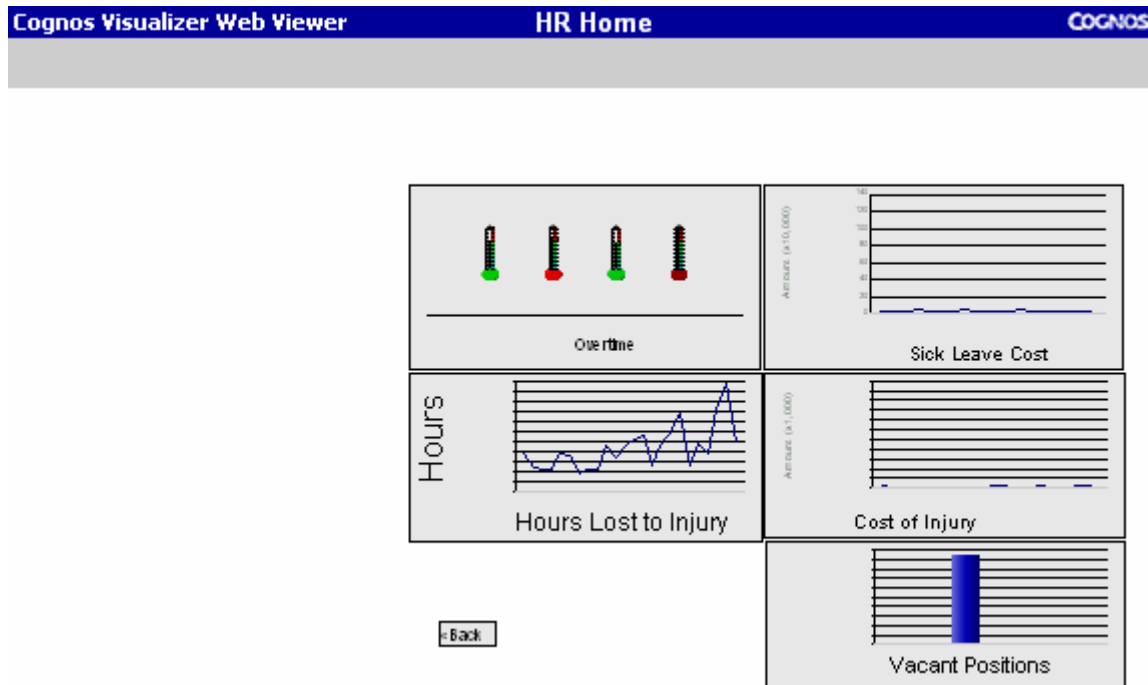

MEASURES as values		2006				
		Actual Revenue	Estimated Revenue	Actual to Estimated Revenue	Percent of Year	Act to Est Rev to Pct of Yr
General Funds Depts	Dept of Parks, Rec & Comm Svcs	\$862,878.53	\$1,285,500	0.67	79%	-0.12
	Public Works Department	\$5,854,762.32	\$7,906,700	0.74	79%	-0.05
	City Clerk's Office	\$2,022.30	\$5,700	0.35	79%	-0.44
	Police Department	\$7,035,219.92	\$9,807,300	0.72	79%	-0.08
	Fire Department	\$1,095,560.99	\$3,662,000	0.30	79%	-0.50
	City Council Department	\$1,373.00	\$0	/0	79%	/0
	Office of the Mayor Department	\$1,943.61	\$0	/0	79%	/0
	City Manager Department	\$59,806.01	\$4,000	14.95	79%	14.16
	General Funds Depts	\$14,913,566.68	\$22,671,200	0.66	79%	-0.14
	Internal Service Funds Depts	\$0.00	\$0	/0	79%	/0
Internal Service Funds Depts	Finance Department	\$165,812,293.71	\$181,547,000	0.91	79%	0.12
	Internal Service Funds Depts	\$165,812,293.71	\$181,547,000	0.91	79%	0.12
Enterprise Funds Depts	Development Department	\$2,857.63	\$0	/0	79%	/0
	Enterprise Funds Depts	\$2,857.63	\$0	/0	79%	/0
Special Revenue Funds Depts	General City Purpose Dept	\$1,020.84	\$0	/0	79%	/0
	Economic Development Department	\$4,000.00	\$0	/0	79%	/0
	Special Revenue Funds Depts	\$5,020.84	\$0	/0	79%	/0
Organization		\$180,733,738.86	\$204,218,200	0.89	79%	0.09

Zero suppression rows and columns.

Here we can see that Economic Development, as of the time of this screen shot, was not anticipated to collect any General Fund revenue (Estimated Revenue \$0), but had transactions worth \$4,000 posted as revenue to the General Fund. Their percentage of anticipated revenue cannot be calculated due to the division by zero. The Public Works Department has collected 74% of their anticipated GF revenue, at 79% of the year.

HR Ratios Dashboard Home

The HR Ratios Dashboard Home opens to an overview of five measurements. Clicking on each panel brings up a more detailed view of that measurement.

Overtime

Clicking on the Overtime Panel reveals the Departments categorized by major funding source. Each thermometer shows how much of the year has elapsed (79% in the screen shot), as well as how much of the budgeted overtime has been expended.

Clicking on the Analyze button brings up PowerPlay Web Explorer with all of the Departments that have Budgeted or Expended Overtime in Budget Year 2006 with the expenditure and appropriation amounts.

HR OT Act to Bud

MEASURES as values		Actual Expenditure	Appropriation Amount	Actual Expenditure to Appropriation	Percent of Year
General Funds Depts	Dept of Parks, Rec & Comm Svcs	\$88,977.67	\$65,300	1.36	79%
	Public Works Department	\$404,127.83	\$299,700	1.35	79%
	Police Department	\$4,634,753.26	\$5,641,000	0.82	79%
	Fire Department	\$2,125,908.86	\$1,080,900	1.97	79%

	Development Department	\$1,535,355.01	\$1,389,000	1.11	79%
	Transportation Department	\$2,956,432.96	\$3,164,800	0.93	79%
	Enterprise Funds Depts	\$10,519,463.51	\$10,474,500	1.00	79%
Organization		\$10,519,463.51	\$10,474,500	1.00	79%

Zero suppression rows and columns.

For more information on understanding or using this screen, please see "Analyzing the Financial Ratios a Brief Introduction" on page 8, or "Using PowerPlay Web Explorer for Navigation and Analysis" on page 24.

Sick Leave Cost

The Sick Leave Cost panel shows a line graph of Sick Leave expenditures over time, with Departments grouped by major funding source.

Clicking on Analyze brings up the PowerPlay Web Explorer view with your Department's Sick Leave expenditure and average hourly rate for the current Fiscal Year, grouped into quarters.

HR Sick Leave Cost

2006 Pay Period End Date Position Organization Sick Leave MEASURES

MEASURES as values	2006 Q 1			2006 Q 2			2006 Q 3

Organization	5,291	\$129,324	(\$6.26)	3,426	\$75,298	\$43.81	3,600	\$80,398	\$50.68

Zero suppression rows and columns.

Your view will be different, depending on your home Department.

Hours Lost to Injury Cost of Injury

The Hours Lost to Injury and Cost of Injury panels show the same information, presented as line graphs by either number of hours lost or dollar value of those hours. Each line represents a group of Departments organized by primary funding source.

Clicking on either panel brings up the same PowerPlay Web Explorer screen, presenting hours lost, wages lost, and average hourly wage for the current Fiscal Year, grouped by quarters.

FD Home

The FD Home dashboard presents a single thermometer view showing the percentage of responses categorized as "Fast".

Clicking on the main panel reveals a second panel grouped by month:

Clicking the Analyze button brings up the PowerPlay Web Explorer view of the supporting data. The data includes Incident Type, Calendar Date, Response Count, Fast Response Count, and Average Response Time.

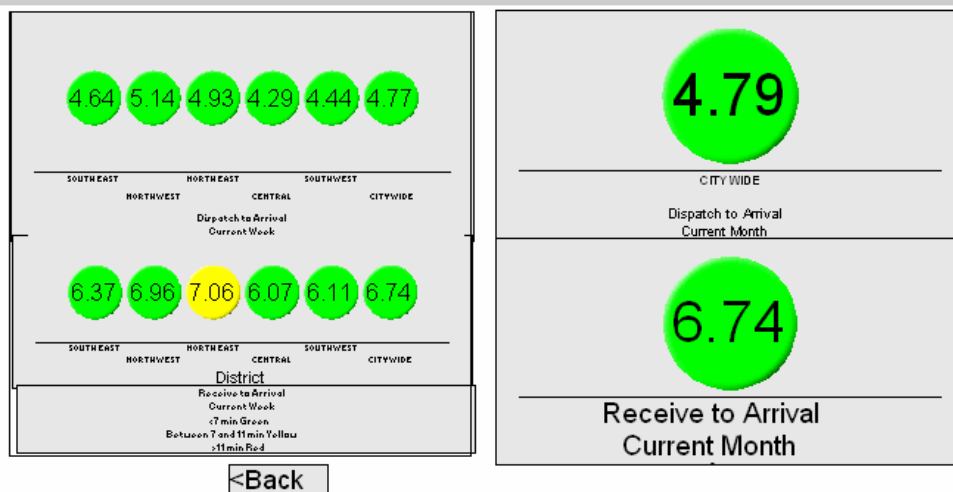

FD Response Times

MEASURES as values	Response Count	Fast Response Count	% Fast Responses	Average Response Time (Decimal)
100 Fire, other	12	4	33.33%	5.63
111 Building fire	27	9	33.33%	5.25
112 Fires in structure other than in a building	3	1	33.33%	9.67
113 Cooking fire, confined to container	9	2	22.22%	5.16
114 Chimney or flue fire, confined to	4	0	0.00%	4.00

For more information on understanding or using this screen, please see "Analyzing the Financial Ratios a Brief Introduction" on page 8, or "Using PowerPlay Web Explorer for Navigation and Analysis" on page 24.

PD Dashboard Home

The PD Dashboard Home organizes an "at a glance" view of Dispatch to Arrival and Receipt to Arrival times by District and City-wide.

Clicking the left-hand panel (the one separated by District) jumps to a summary for the current week, by District.

Weekly Response Times

<Back

Analyze>

Trend>

This panel has a Trend button in addition to the Analyze button. The Trend button jumps to a PowerPlay Web Explorer screen with an integrated graph, showing a line of response times.

The graph can be changed by using the drop-down box in the top. The data is presented below the graph. Note the two scroll-bars on the right hand side to see more of each portion.

Cognos PowerPlay Web Explorer

PD Response Times Wk

COGNOS

PD Response Times Weekly

MEASURES as values	SOUTH EAST	NORTH WEST	NORTH EAST	CENTRAL	SOUTH WEST	CITY WIDE	
03/27/2006	Receive to Dispatch	1.73	1.82	2.13	1.78	1.67	1.97
	Dispatch to Arrival (Wk)	4.64	5.14	4.93	4.29	4.44	4.77
	Receive to Arrival (Wk)	6.37	6.96	7.06	6.07	6.11	6.74

The Trend button from the main dashboard brings up this PowerPlay Web Explorer screen, filtered to the current week, Priority 0 calls, by District. For more information on understanding or using this screen, please see "Analyzing the Financial Ratios a Brief Introduction" on page 8, or "Using PowerPlay Web Explorer for Navigation and Analysis" on page 24.

Monthly Response Times

Clicking on the right-hand panel from the dashboard home brings up the Monthly Response Time summary.

Clicking Analyze brings up the PowerPlay Web Explorer view set to the current month of Priority 0 calls, grouped to a City-wide level instead of by District.

PD Response Times Monthly

Current Month CityWide Priority 0 MEASURES

MEASURES as values	CITY WIDE
Receive to Dispatch	1.95
Dispatch to Arrival	4.79
Receive to Arrival	6.74

Clicking the Trend button brings up a different view, one with an integrated graph.

Notice that unlike the Weekly Response Times Trend view, there is no drop-down box. These statistics are City-wide. The Weekly statistics are per-District, so you can change which District is displayed in the graph with the drop-down box.

What are the Available Measurements?

In this section we will attempt to document the available Measurements within Cognos. Note that this documentation will be superseded by other documentation, and by the product itself.

This information was generated from the supporting documents [City Manager Fund Analysis.doc](#) and [COGNOS Metric Project Workbook.xls](#) .

Financial Measurements

These measurements are available when in PowerPlay Web Explorer, drilling down through the FS Ratios Dashboard Home.

Actual Revenue

From PS_LEDGER. Posted_total_amt where account type is 'R'.

Actual Variable Revenue

The GF Expense Ratio multiplied by the Actual Revenue

Actual Expenditure

From PS_LEDGER. Posted_total_amt where account type is 'E'. This is the current method but moving to PS_JRNL_HDR and PS_JRNL_LN.

Estimated Revenue

From PS_LEDGER_KK. Posted_total_amt where account type is 'R' and ledger = 'DETAIL_BUD'

Appropriation Amount

From PS_LEDGER_KK. Posted_total_amt where account type is 'E' and ledger = 'DETAIL_BUD'

Percent of Year

The percentage of the Budget Year elapsed as of today's date. This is useful to see whether expenditures or revenues are on target. For example, if 86% of projected expenditures have been spent, but only 34% of the year has elapsed, something may need investigation.

GF Expense Ratio

For ISF, Enterprise, and pure GF Departments, ratio is 1. For Departments that have General Fund and non-General fund revenue components, this is the proportion of General Fund appropriations to total appropriations.

Please refer to the document [City Manager Fund Analysis.doc](#) for more information on how this is calculated, which Departments are involved, and what the values are for Budget Year 2006.

Rev to Exp Ratio

Actual Revenue / Actual Expenditures

GF Revenue To Exp Ratio

GF Variable Revenue Amount / GF Expense Ratio

Act to Est Rev to Pct of Yr

Actual revenue compared to estimated revenue, adjusted for the portion of the Budget Year elapsed

Percent Act to Approp Expend

Actual Expenditures / Appropriations

HR Measurements

These measurements are available when in PowerPlay Web Explorer, drilling down through the HR Ratios Dashboard Home.

FTE

From PS_JOB – count of employees

Hours

From PS_TL_EMPL_DATA – could be pay outs based on TRCs. This is Hours used by an employee

Amount

From PS_TL_EMPL_DATA and PS_JOB with TRCs – a total dollar amount of employee time

Hourly Rate

From PS_TL_EMPL_DATA and PS_JOB with TRCs – an hourly dollar amount of employee time

Monthly Rate

The monthly salary rate of the position, based on the last incumbent or the “B” step.

Savings to End of Year

The calculated salary savings of the vacant position to the end of the current Fiscal Year.

Fire Measurements

These measurements are available within the FD Home Dashboard.

Response Count

The number of responses within a category

Fast Response Count

The number of responses within a category that are Fast, a subset of the Response Count

% Fast Responses

The percentage of total responses that are also Fast responses.

Average Response Time

The average response time of all responses

PD Measurements

These measurements are available within the PD Home Dashboard. They are calculated either weekly or monthly, depending on which PowerPlay Web Explorer is launched.

Receive to Dispatch

The time from receipt of a call to dispatch

Dispatch to Arrival

The time between dispatching a responding unit to the arrival of the unit

Receive to Arrival

Total time from receipt of the call to arrival of the responding unit

I Need More Help!

Cognos Subject Matter Experts (SME's) from most Departments have received training in all aspects of the Cognos tools. They are your first point of contact for Cognos related questions.

The Cognos Core Team members can help you locate your SME, or help the SME with advanced topics. Please contact the ISD Help Desk at 621-7100, Help.Desk@fresno.gov, or use [Heat Self Service](#) to log a call, and help will be made available as soon as possible.

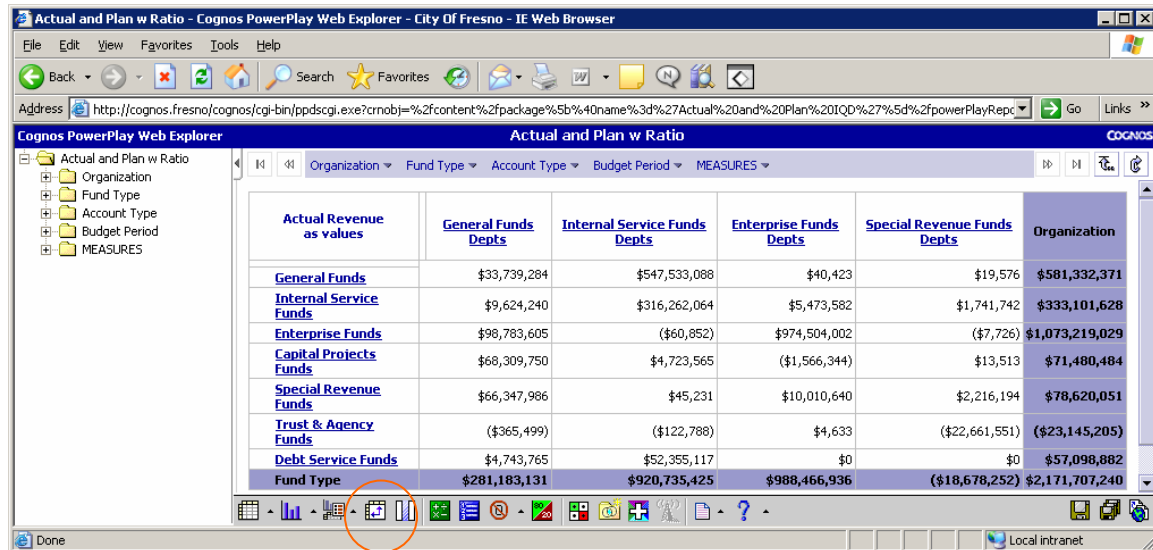

More information on navigating the PowerPlay Web Explorer and using the advanced features of the tool follow this page.

Using PowerPlay Web Explorer for Navigation and Analysis

Let's go through these steps together for a hands-on opportunity. This is a 'raw' cube: no filters, no drilldown yet. The data is for the 1st measure in the list (Actual Revenue). Remember, you always have a Back Arrow.

Starting Orientation, Swap Rows/Columns

The 1st 2 dimensions are in the grid. See the 4th icon and its tool tip? Click it, and get the following:

GF Exp Ratio

You can choose individual categories to hide or show, and whether to show totals:

The screenshot shows the Cognos PowerPlay Web Explorer interface. The main window displays a table titled 'Actual and Plan w Ratio' with columns for various financial metrics. Below the table is a 'Hide/Show' dialog box. In this dialog, the 'Visible Categories' list includes 'Actual Revenue', 'Actual Variable Revenue', 'Actual Expenditure', 'Percent of Year', and 'GF Exp Ratio'. The 'Hidden Categories' list includes 'Estimated Revenue' and 'Appropriation Amount'. The 'Show Summaries' checkbox is checked and circled in red. The 'OK' and 'Cancel' buttons are at the bottom of the dialog.

Measures as %

Use a combination of deleting layers and dragging in dimensions to create the following. Note the filters in the last two dimensions in the dimension line.

The screenshot shows the Cognos PowerPlay Web Explorer interface. The main report is titled "Actual and Plan w Ratio". The report is organized into a table with columns for "Actual Revenue as", "General Funds Depts", "Internal Service Funds Depts", "Enterprise Funds Depts", "Special Revenue Funds Depts", and "Organization". The data is presented for the year 2005. The report includes a sidebar with a tree view showing the hierarchy of the report, including "Organization", "Fund Type", "Account Type", "Budget Period", and "MEASURES". The main table shows the following data:

Actual Revenue as	General Funds Depts	Internal Service Funds Depts	Enterprise Funds Depts	Special Revenue Funds Depts	Organization
General I as % of row total	\$14,473,060	\$237,452,030	\$22,124	\$16,953	\$251,964,167
Internal as % of row subtotals	\$3,801,592	\$113,921,687	\$1,718,897	\$706,300	\$120,148,476
Enterpris as % of column totals	\$20,658,048	(\$24,637)	\$364,120,513	(\$5,884)	\$384,748,040
Capital P as % of column subtotals	\$41,036,363	\$4,231,187	(\$30,667)	\$0	\$45,236,883
Special R as % of grand total	\$36,970,802	\$45,248	\$4,923,925	\$836,527	\$42,776,502
Trust & Agency Funds	\$64,210	\$116,053	\$0	(\$8,599,797)	(\$8,419,534)
Debt Service Funds	\$1,739,354	\$21,009,845	\$0	\$0	\$22,749,199
Fund Type	\$118,743,429	\$376,751,413	\$370,754,792	(\$7,045,901)	\$859,203,733

Right click the upper left where it says Actual Revenue as Values, and choose **as % of column totals**.

Notice that the columns total 100%.

Right click where it now says **Actual Revenue as % of column total**, and choose **as % of column subtotals**, and see what happens (nothing). Then expand the Fund Type column:

Local Intranet

Calculation

Switch back to **Actual Revenue as Values** and delete the detailed Funds layer.

Ctrl-click the Enterprise Funds Depts and Special Revenue Funds Depts columns, and right click, and choose **Insert Calculation**. You can also use the Calculator button in the lower toolbar.

Actual Revenue as values	General Funds Depts	Internal Service Funds Depts	Enterprise Funds Depts	Special Revenue Funds Depts	Organization
General Funds	\$14,473,060	\$237,452,030	\$22,124		\$251,964,167
Internal Service Funds	\$3,801,592	\$113,921,687	\$1,718,897		\$120,148,476
Enterprise Funds	\$20,658,048	(\$24,637)	\$364,120,513		\$384,748,040
Capital Projects Funds	\$41,036,363	\$4,231,187	(\$30,667)		\$45,236,883
Special Revenue Funds	\$36,970,802	\$45,248	\$4,923,925		\$42,776,502
Trust & Agency Funds	\$64,210	\$116,053	\$0		(\$8,419,534)
Debt Service Funds	\$1,739,354	\$21,009,845	\$0		\$22,749,199
Fund Type	\$118,743,429	\$376,751,413	\$370,754,792	(\$7,045,901)	\$859,203,733

Let's add up those last 2 department types (notice that I named them Ent and Spec):

Actual Revenue as values	General Funds Depts	Internal Service Funds Depts	Enterprise Funds Depts	Special Revenue Funds Depts	Ent and Spec	Organization
General Funds	\$14,473,060	\$237,452,030	\$22,124	\$16,953	\$39,077	\$251,964,167
Internal Service Funds	\$3,801,592	\$113,921,687	\$1,718,897	\$706,300	\$2,425,197	\$120,148,476
Enterprise Funds	\$20,658,048	(\$24,637)	\$364,120,513	(\$5,884)	\$364,114,629	\$384,748,040
Capital Projects Funds	\$41,036,363	\$4,231,187	(\$30,667)	\$0	(\$30,667)	\$45,236,883
Special Revenue Funds	\$36,970,802	\$45,248	\$4,923,925	\$836,527	\$5,760,452	\$42,776,502
Trust & Agency Funds	\$64,210	\$116,053	\$0	(\$8,599,797)	(\$8,599,797)	(\$8,419,534)
Debt Service Funds	\$1,739,354	\$21,009,845	\$0	\$0	\$0	\$22,749,199
Fund Type	\$118,743,429	\$376,751,413	\$370,754,792	(\$7,045,901)	\$363,708,891	\$859,203,733

So, we're curious about the mix of different funds to which our Ent and Spec departments are booking expenditures. Let's use the **Percent of Base** calculation.

Highlight the column, click either the calculator or right click | Insert Calculation, then choose Percent of Base as the operation, and give it the name 'Mix':

Internal Service Funds Depts

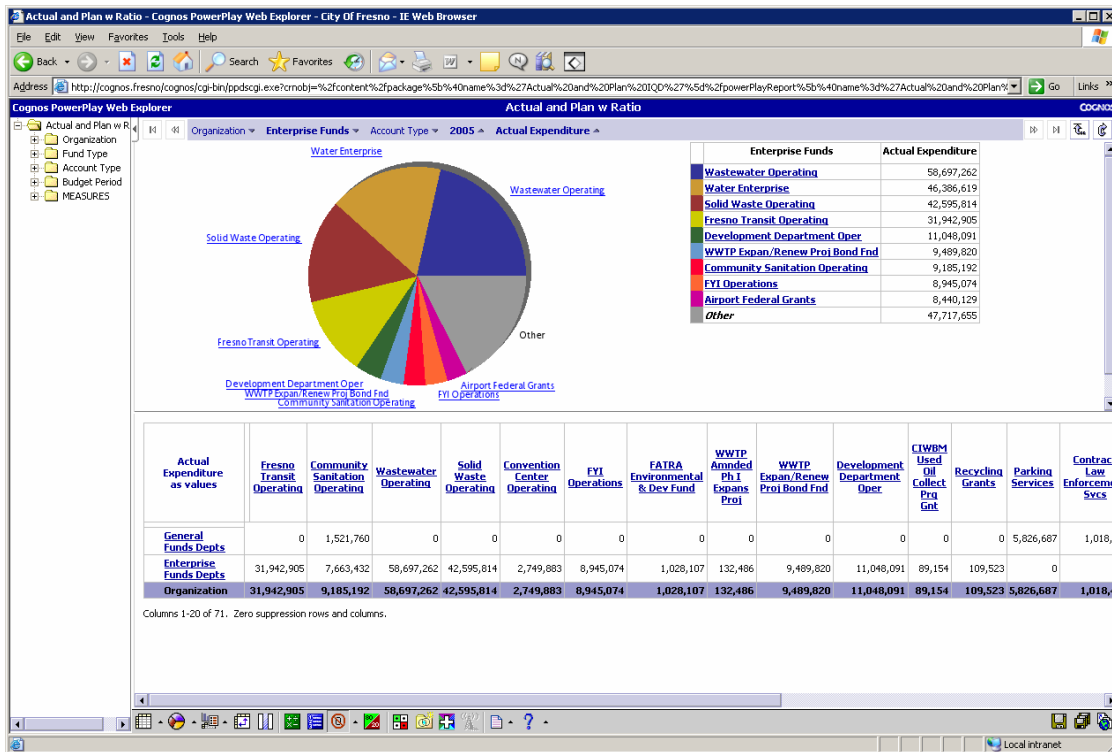

Swap Rows/Columns (use the Swap button), highlight the **Ent and Spec** and **Mix** rows, hide them, and end up like this:

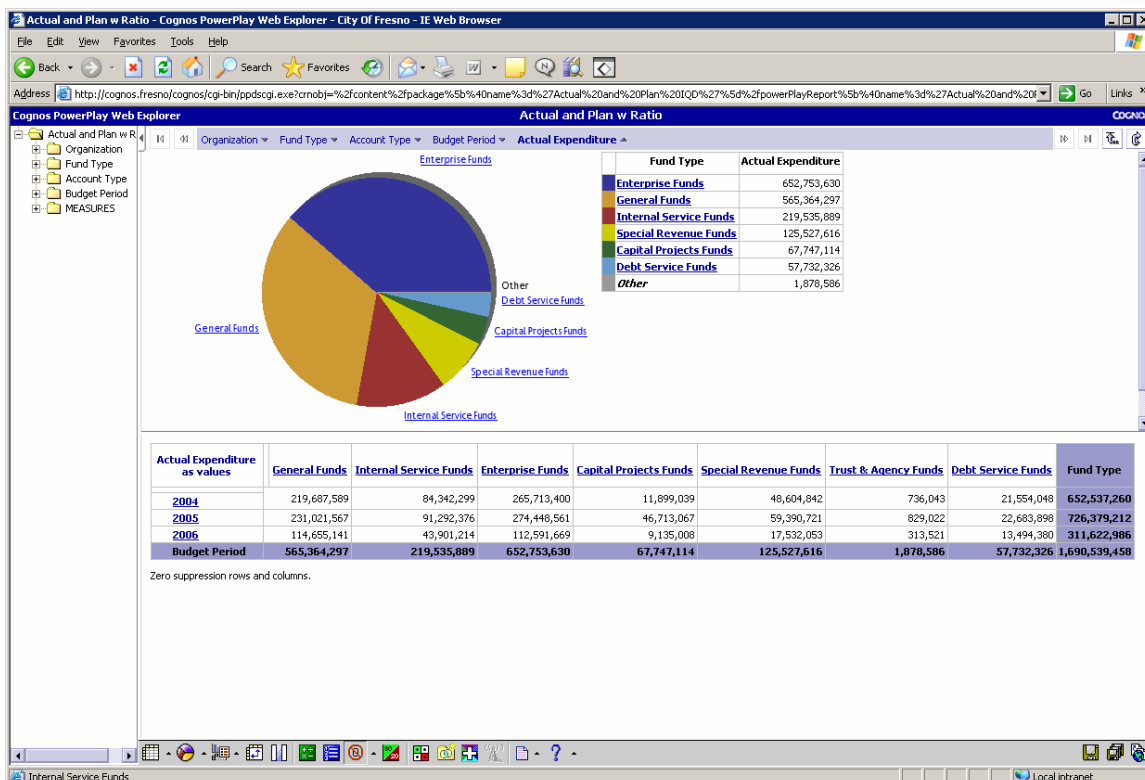

Drill down on Enterprise Funds by clicking in either its sector of the pie, its description by the pie, or its description in the legend, and get the following. Note that a category called Other is created for the smallest categories.

Choose Split View and get the following:

Drill up or down on the chart, or drag other dimensions into the grid, and the grid and chart follow each other. Below, **Budget Period** is dragged onto rows, and **Fund Type** is dragged on top of the columns.

80/20 Suppression

Drop the chart by toggling Split View again, then swap rows/columns, then drill down on Enterprise Funds:

Zero suppression rows and columns. 80/20 suppression.

Done Local intranet

Exceptions

Remove 80/20, drag the Measure **Actual to Estimated Revenue** to the upper left corner to replace **Actual Expenditures** or filter on it in the dimension line. Hide the **Budget Period** summary. Use the icons to the right of the dimension line to change the display (as below).

Click the Custom Exception Highlighting button (checkerboard icon).

Click Add, name the exception, then move to the first dropdown and select Minimum:

The screenshot shows the Cognos PowerPlay Web Explorer interface. The main report, 'Actual and Plan w Ratio', displays a table of ratios for various operating units across the years 2004, 2005, and 2006. The 'Exceptions' dialog box is open, allowing the user to define custom exception ranges and colors.

Actual to Estimated Revenue as values	2004	2005	2006
Fresno Transit Operating	0.78	0.75	0.00
Community Sanitation Operating	0.92	0.98	0.53
Wastewater Operating	0.93	0.59	0.63
Solid Waste Operating	0.98	0.90	0.27

Exceptions

Exception Name: Act to Est Rev

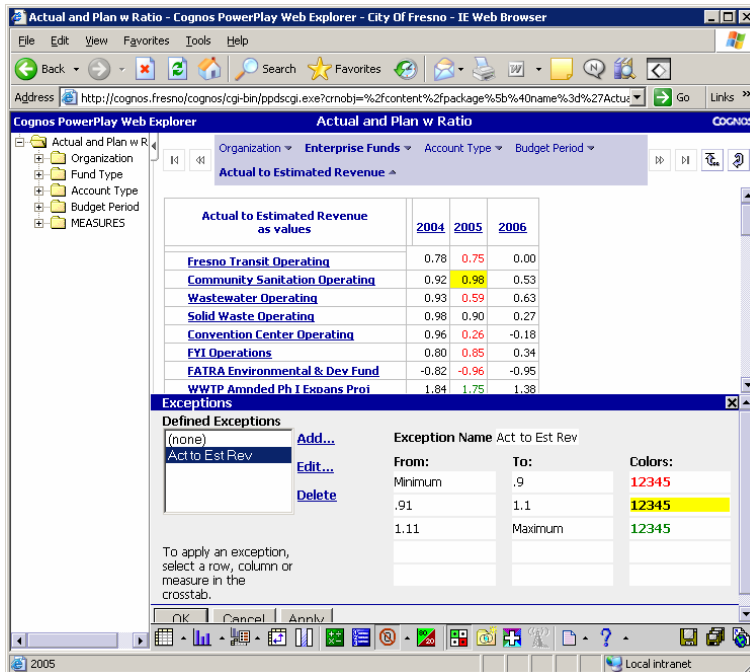

Specify up to 5 exception ranges, and the text and cell colors to apply to each range. You can also enter Minimum in the From: field, or Maximum in the To: field.

From:	To:	Text:	Cell:
Minimum	.9		
.91	1.1		
1.11	Maximum		

OK Cancel

Enter limits and colors as above

Then click OK. Highlight the 2005 column, the Apply. You should have the following:

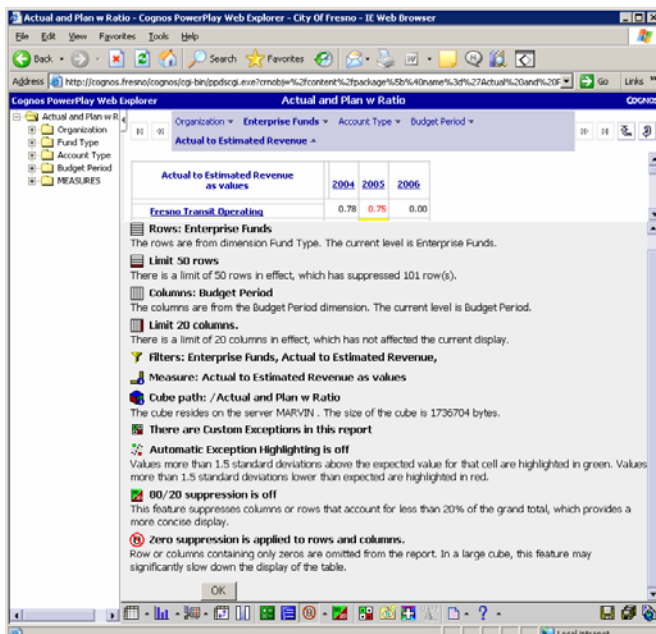

Click OK.

You can create as many defined exceptions as you need, and apply them to different columns or rows of data. That is, the thresholds for the different colors can differ for different Budget Periods. You can edit each exception range over time to track the effect of special initiatives.

Info?

Click next to the ? and choose Explain.

Click the Scroll through to see an explanation, then scroll all the way down to find the OK button:

Sort

Each row/column heading has the button with the sort options visible when you right-click it:

The screenshot shows the Cognos PowerPlay Web Explorer interface. The main window displays a table titled "Actual to Estimated Revenue as values". The table has columns for years: 2004, 2005, and 2006. A right-click context menu is open over the 2005 column header, showing options: "Sort Descending", "Sort Ascending", and "No Sort". The table lists various revenue items with their values for each year.

Actual to Estimated Revenue as values	2004	2005	2006
FTA 02 5310 Grant CA	0.00	11.1	3.41
Solid Waste Rate Stabilization	6.92	7.63	3.41
Transit Local Match Reserve	/0	4.86	/0
FTA 98 Grant CA-90-X892	0.36	3.61	0.33
UGM Sewer Oversize Svc Area 38	1.27	3.48	0.73
UGM Water Area 201-5	5.59	2.65	0.90
FYI - Surplus Revenue	2.38	2.48	1.59
Waste Water Connection Fee	1.41	1.90	3.36
UGM Sewer Oversize Svc Area 23	-1.23	1.81	3.15
WWTP Amnded Ph I Expans Proj	1.84	1.75	1.38
Miscellaneous Clean Air Grants	0.00	1.71	0.00
Sewer Sys Rate Stabilz-Con Fee	1.42	1.49	1.91
UGM Sewer Oversize Svc Area 22	1.57	1.48	1.50
Conference Ctr Garage Repair	0.50	1.44	1.03
UGM Sewer Oversize Svc Area 43	/0	1.38	0.37
UGM Sewer Oversize Svc Area 35	26	1.22	0.22

Once you've chosen a sort option, the data has an icon to indicate that it's sorted. You can use it to remove the sort.

Rank

To determine your best-performing revenue-making funds within the Enterprise Funds, select the 2006 column, then either right click the column and choose Rank, or use the button on the toolbar. Change the Sorting Order to Ascending (you will want to see the top-ranked fund first):

Local intranet

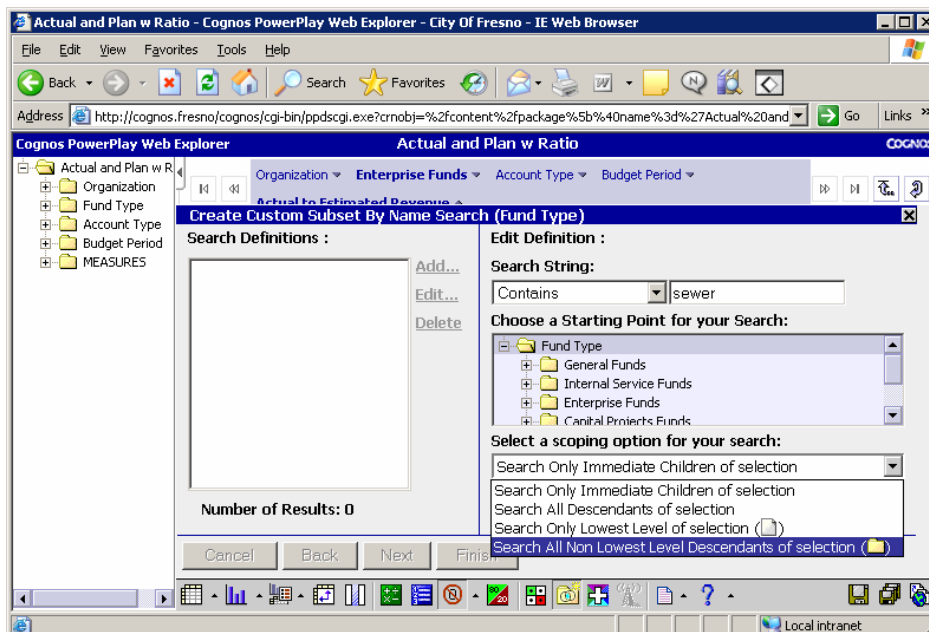

Custom Subset

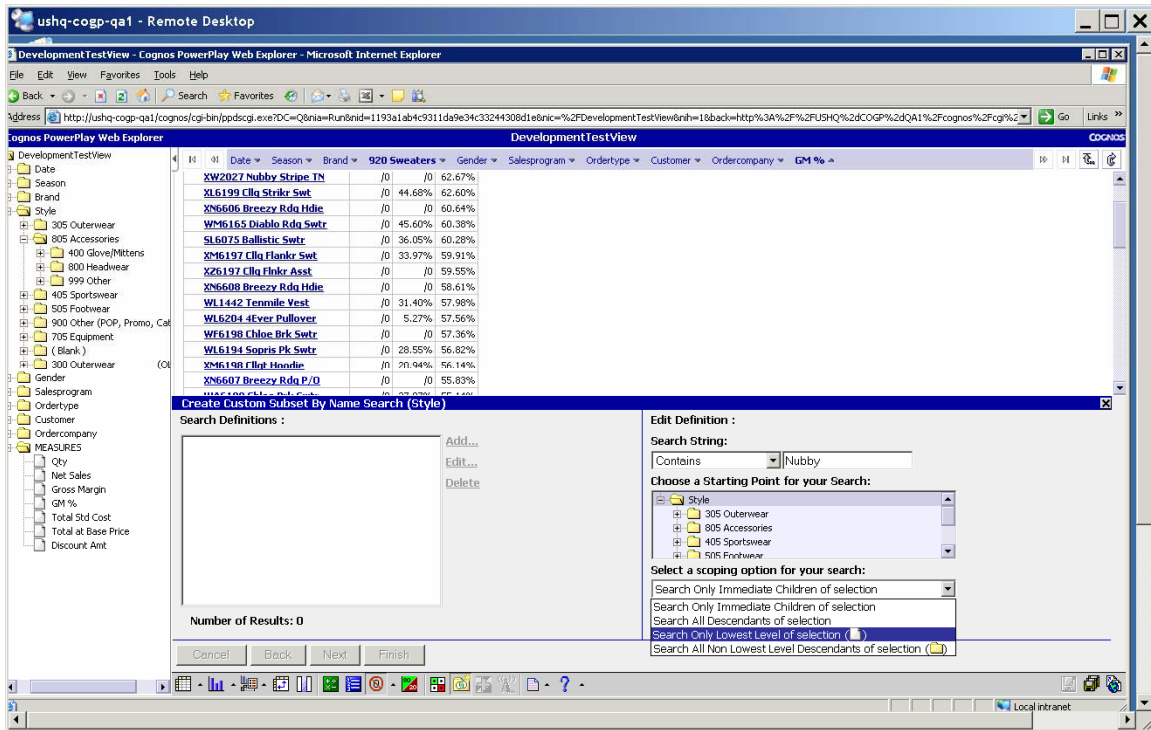

Here, we will create a Custom Subset of Funds, called 'Sewer', with the word Sewer in the description. Remove the Rank, and click the Custom Subset icon (see below):

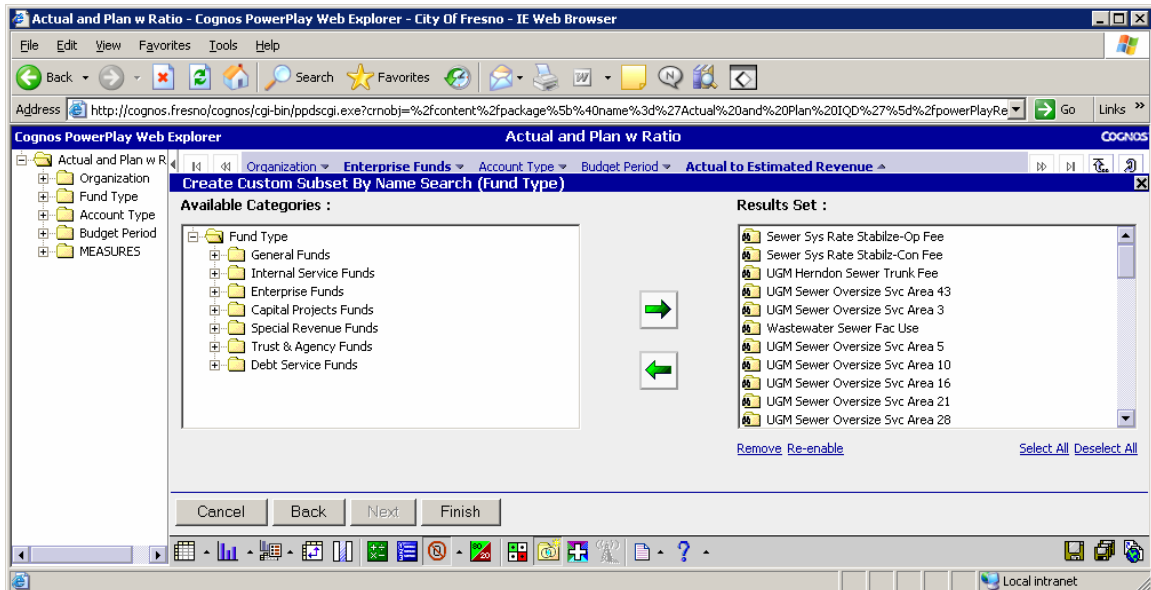

Above, we're setting up the subset. As you will see, it will be created from one or more searches. Below, we're creating the first of possibly many search criteria. Notice that we're starting at the top of the Fund hierarchy, and searching only for the lowest-level categories (Funds) that contain 'sewer'.

Add a Search Definition. We're using non-lowest descendants because the lowest are just fund numbers:

Next, you get an opportunity to refine the selection manually:

Sewer is now a category rollup! See your Dimension Viewer. If you Save As this report and use it as a starting point for new reports, the Sewer subset will remain available.

Sheet1

Ready NUM

Drag the Organization into the row headings, and leave Years across the top.

Choose the first option, **Export PDF...** Notice that we're including Layers within the Fund Type dimension. This creates a new page for each Fund Type.

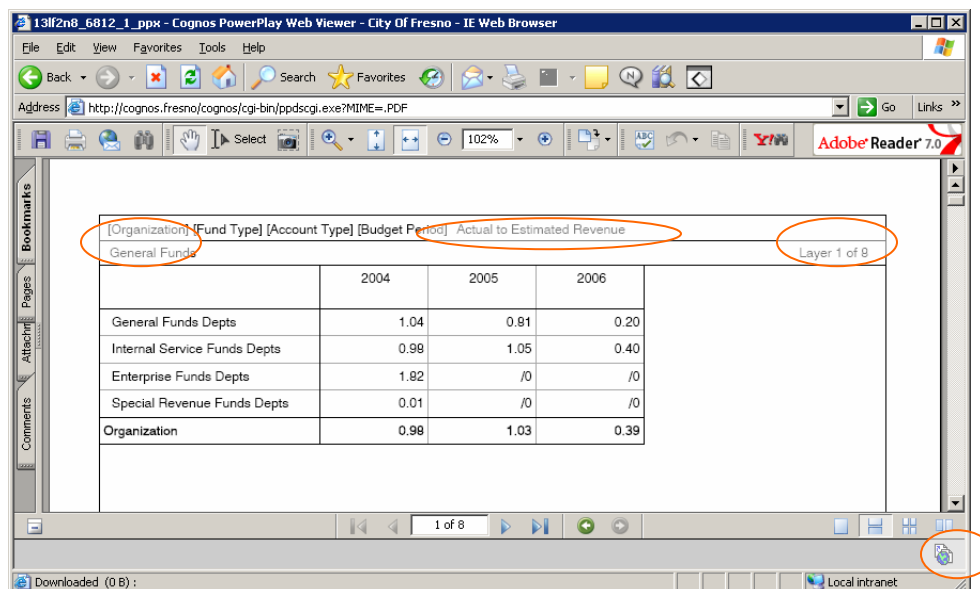

Proceed to Export. Don't use the Apply button. It doesn't do anything useful.

Notice the **General Funds** in the upper left, and Layer 1 of 8 in the upper right.

The measure is indicated in the dimension line.

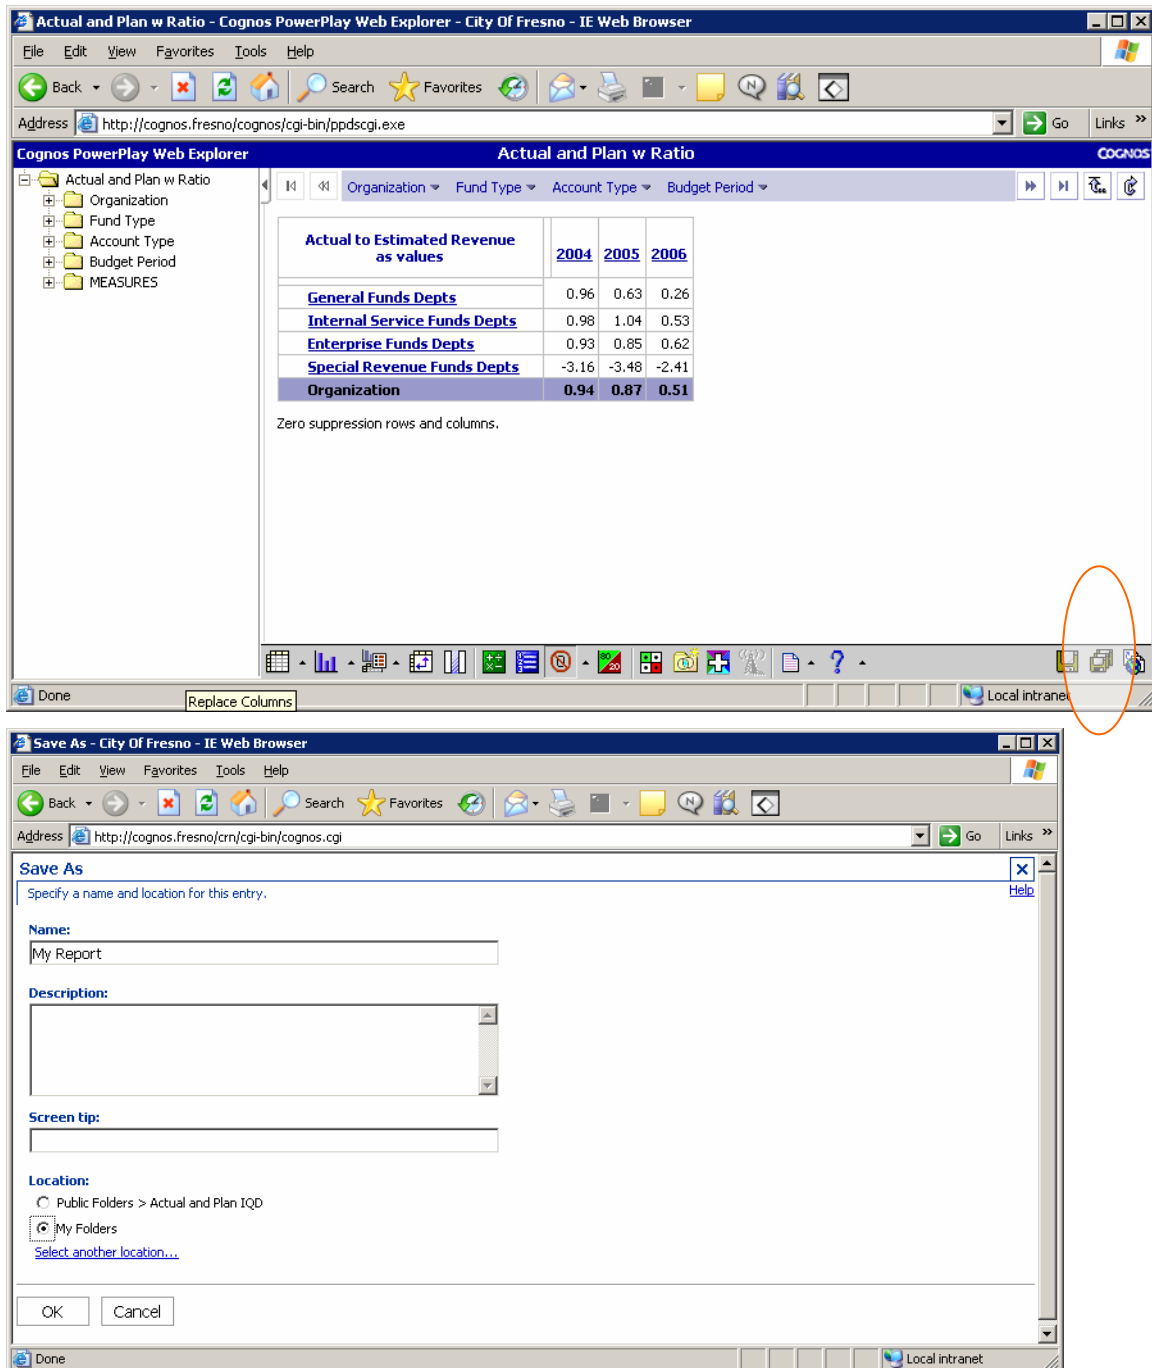

All of the power of Acrobat is now available to you. You can scroll pages with the Pages explorer, or using the page number in the bottom center of the screen.

To get back to PowerPlay Web, use the Return icon on the lower right.

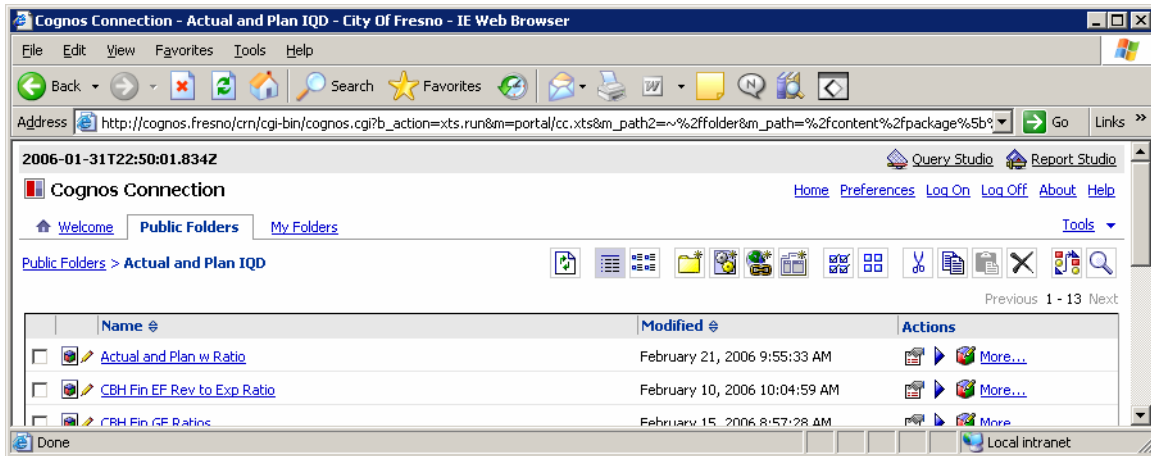

Save As, Shortcuts, Move, Delete

Use the Save As icon to save a view of a cube in either a Public Folder or MyFolder (depending on your privileges):

Give the report a name, and choose a location as allowed by your access privileges. Depending on your privilege level, you may be able to create a new folder within My Folders before saving the report.

You can move reports and cubes among folders that are available to you. Click the Actions link next to a report you want to move. Exit to the Portal, Public Folders. Check the More... link for the item titled Actual and Plan w Ratio:

Then, depending on your privileges, you may copy or move the report to another folder, or create a new folder, as in the Save As dialog.

Creating a shortcut to a report allows you to put it in multiple folders, and when the report is changed or updated, all shortcuts in all folders point to the same changed report.
